(h) Testamur of the Institute of Public Cleansing	
(i) Diploma of the Public Health Inspectors Education Board.	

ARNOLD URBAN DISTRICT COUNCIL

Annual Report 1970

Health Department,
Arnot Hill Park,
Arnold,
Nottingham.

December, 1971.

To: The Chairman and Members of the Council

Herewith the Annual Report for 1970.

It is with regret that I have to record the absence through ill-health of the Medical Officer of Health since May 1970, and also his untimely death in July, 1971. Dr. Robinson retired officially in May 1971, and this would therefore have been his last report to you.

Dr. Robinson was a popular and well known figure in the Urban District over the last 15 years - he gave unstintingly of his help and advice, whenever it was requested and I feel he will be sadly missed by many people of the district. He did a lot of work with the mothers and children of the area, and no doubt a considerable void has been noticed in the child welfare clinics.

Dr. Robinson's concern in Arnold was with regard to improvement of social conditions; he was always urging increasing speed in such fields as rehousing, clearance of unfit property and also with regard to clean air and the declaration of smokeless zones.

I am indebted to him for his help and encouragement over the past four years.

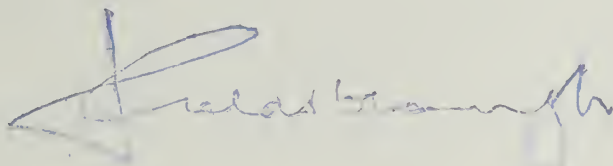

The state of the public health of the area is good and complies with the requirements of the Department of the Environment.

The estimated mid-year population is 32,500 an increase of 720 over 1969.

The birth rate was 15.2 per 1,000 population and the death rate was 10.4 per 1,000 population. The death rates from cancer and ischaemic heart disease have risen since 1969. Fifteen deaths from the latter condition are coming in people under the age of 55 years, this is following the national trend.

In the section on Vaccination and Immunisation, Rubella Vaccination (German Measles) is recommended for the first time. Although a mild infectious disease, German Measles has been the cause of congenital defects in children born to mothers who have had or have been in contact with the disease during the early stages of pregnancy. It is hoped that by immunising our young female population such problems can be prevented.

Lastly, I would record my thanks to the Chairman and Members of the Public Health Committee, to the Clerk of the Authority and Chief Officers and to the staff of the Health Department for their help and co-operation throughout the year.

ARNOLD URBAN DISTRICT STATISTICS FOR 1970

England and Wales

Area (in acres)	4,505	
Population (estimated mid-year)	32,500	48,987,700

	<hr/>	<hr/>	<hr/>

Major causes of death in the area are Ischaemic heart disease and Cerebro-Vascular disease - (statistics for both these conditions having increased markedly over those for 1969) and also malignant disease. The statistics for Carcinoma of lung are at the same level as in 1969, but new growths in other organs have increased in number. Deaths from Pneumonia doubled in the past year, most of these deaths were in the 65 years plus age group.

Deaths from other causes - NIL

VACCINATION & IMMUNISATION

Vaccinations and Immunisations are carried out at the Arnold Health Centre during child welfare sessions by the Department of Medical Officers of the Nottinghamshire County Council.

I do one session per month (first Thursday in each month at 2.30 p.m.) - mostly for booster doses for children who are about to start school.

MEASLES

482 children were vaccinated against this disease in 1970, many more need to be protected before the true effect can be seen - namely eradication of the disease in our child population.

POLIOMYELITIS

379 children completed the 3 dose course of oral vaccine.
615 children received reinforcing doses of vaccine.

DIPHTHERIA, WHOOPING COUGH AND TETANUS

394 children completed a course of the triple vaccine
515 children received a reinforcing dose of the vaccine.

TETANUS ONLY

75 children received a reinforcing dose of this vaccine.

SMALLPOX VACCINATION

322 children were vaccinated in 1970.

77 children were re-vaccinated during the year.

RUBELLA (GERMAN MEASLES) VACCINATION

This vaccine was introduced in 1970, and in the school year 1970-71 487 female school children between the ages of 11-13 years were given the single dose injection.

When an expectant mother either develops German Measles or comes into contact with the disease during the early months of pregnancy, there is a risk of congenital defect or deformity in the child, in the form of heart tensions, eye and ear defects and also mental subnormality.

Thus, we hope to prevent this happening by vaccinating our female population before they reach child bearing age. The vaccine will now be offered to every female child on entry into secondary school.

B.C.G.(TUBERCULOSIS) VACCINATION

450 children, boys and girls, were offered testing and vaccination if necessary, in 1970.

401 parents consented to testing and vaccination.

388 were skin tested, of which 353 children were found to be negative and as a consequence were vaccinated. 28 children were found to be positive and were X-rayed - no child was found to have Tuberculosis.

Those children that were absent for vaccination will be done in 1971.

It is sad to see in this "enlightened" day and age, that one parent in nine refused B.C.G. vaccination against the disease.

SERVICES PROVIDED BY THE NOTTINGHAMSHIRE COUNTY COUNCIL

AMBULANCE SERVICE : This service can be obtained by dialling Nottingham 82603, or in an emergency by dialling 999.

HOME HELP SERVICE : Area Organiser - Mrs. J. Hancock,
Area Office, Carlton County Health Clinic,
61 Burton Road, Carlton, Tel: 247151

Statistics for 1970 - Arnold & Carlton

62 Haver Hill Crescent,
Rise Park,
Nottingham. Nottingham 272923

Mrs. M.E. Thompson,
79 Thackerays Lane,
Woodthorpe,
Nottingham. Nottingham 268739

Mrs. I.M. Garton,
50 Stoneacre,
Bestwood Park Estate,
Nottingham. Nottingham 265263

HEALTH VISITING SERVICE

There are 3 Full-time and 2 Part-time Health Visitors in the area based at the Health Centre, High Street, Arnold.

Full-time

Miss Thorne
Mrs. Andrews
Mrs. Gardner

Part-time

Mrs. Barnacle
Mrs. Anderson

There are also 2 clinic nurses

Mrs. Astill
Mrs. Tuck

The Tuberculosis Health Visitor for the area is :-

Mrs. C.M. Brennand,
Forest Dene,
Gregory Boulevard,
Nottingham.

(Telephone 77884.)

REPORT OF THE
CHIEF PUBLIC HEALTH INSPECTOR OF THE
YEAR, 1970

Health Department,
Arnot Hill Park,
Arnold.

To the Chairman and Members of the Council

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my Report for the year 1970.

SECTION 'D'
SANITARY CIRCUMSTANCES OF THE AREA

WATER.

The whole of the district obtains its water from the Nottingham Corporation. The supply has been satisfactory in quality and quantity, has no plumbo solvent action and no complaints have been received.

SWIMMING BATHS.

The Public Baths have been well conducted under the able supervision of Mr. W. Watson, Baths Superintendent.

No complaints were received by the Health Department as to unsatisfactory hygiene conditions.

Samples of water submitted to the Public Health Laboratory for bacteriological contamination were satisfactory.

DRAINAGE AND SEWERAGE.

Foul sewerage from the whole of the built-up area of the Urban District is dealt with by the Nottingham Corporation at their disposal works, Stoke Bardolph.

RIVERS AND STREAMS.

There are no Rivers or Canals within the District.

Five tributary streams drain the area:-

1. Gedling Road and Mapperley confluence via Arno Vale Road and Thackeray's Lane.
2. Coppice Road confluence via Bentwell Avenue and Brookfield Road.
3. Kingswell confluence via Nottingham Road Recreation Ground.
4. Calverton Road confluence via Front Street and Nottingham Road.
5. Redhill confluence via Mansfield Road to Jubilee Road.

All converge into the Day Brook which in turn discharges into the River Leen at Basford in the City of Nottingham, via the Valley Road Playing Fields.

CLOSET ACCOMMODATION.

The position throughout the district generally is in my opinion entirely satisfactory in that a water carriage system operates to the extent of 100 per cent.

No more than 6 Pail Closets remain in outlying parts of the District.

CESSPOOLS

There are approximately 70 cesspools in the outlying parts of the Urban District, on the East, North East and Northern boundaries, where public sewers are not available. These are emptied by the Council on request twice a year (Spring and Autumn) at a charge of £1.50 per 800 gallons. An income of £384.48 was received during the year for emptying cesspools; expenditure was £476.65

PUBLIC HEALTH ACT, 1936. SECTION 75 (1) DUSTBINS

The system of replacing defective dustbins is as follows:-

Defective bins are reported by the refuse collectors; a letter is then sent to the owner requesting replacement of the defective bin. After a lapse of a reasonable time, a Statutory Notice is served on the owner giving him 28 days in which to provide same. 8 Statutory Notices were served during the year and 1 dustbin supplied in default.

Unsatisfactory containers such as wash-tubs, drums etc., appear from time to time. Where this happens, the premises are visited and the substitute receptacle is ultimately replaced for one of an approved pattern.

Two hundred and twenty-nine new dustbins were provided at 82 private premises, 147 council houses and other council premises. 82 Preliminary Notices were served.

Number of accidents investigated as to causation	5

Observations were carried out by the department regarding nuisance from smoke.

The air pollution measurement apparatus installed at the Public Library in August 1959 continued to operate; recordings from this instrument are sent monthly to the Department of Scientific and Industrial Research, Warren Spring Laboratory.

Prior Approval for Boiler Plant

One application for prior approval was received and dealt with. The question of chimney heights was given consideration, the recommendations of the makers of boiler plant being recognised.

HOUSING

Housing Act 1957

Number of New Houses erected during the year

(a) Total houses erected	379
(i) By the Local Authority	69
(ii) By other Local Authorities	-
(iii) By Private Enterprise	310
(iv) By Coal Industry Housing Association	-

1. Inspection of Dwellinghouses during the year

(1)	(a)	Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts)	209
	(b)	Number of inspections made for the purpose.. ..	517
(2)	(a)	Number of dwellinghouses (included) under sub-head (1) above which were inspected and recorded under the Housing Consolidated Regulations 1925	-
	(b)	Number of inspections made for the purpose.. ..	-
(3)		Number of dwellinghouses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	83
(4)		Number of dwellinghouses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	181

2. Remedy of Defects During the Year Without Service of Formal Notice

Number of defective dwellinghouses rendered fit in consequence of informal action by the local authority or their officers.. .. 160

3. Action under Statutory Powers during the Year

A. Proceedings under Sections 9 and 16 of the Housing Act 1957.

1.	Number of dwellinghouses in respect of which notices were served requiring repairs.. .. .	-
2.	Number of dwellinghouses rendered fit after service of formal notices :-	
	(a) By Owners.. .. .	-
	(b) By Local Authority in default of owners	-

RENT ACT 1957

There has been no applications under this Act since 1964.

HOUSING ACT 1969

Rent of dwellings in good state of repair and provided with standard amenities.

	<u>Year Ending 1970</u>
(1) <u>Section 45 Qualification Certificates</u>	
(a) Applications received	99
(b) " granted	29
(c) " refused	1
(d) Appeals allowed	Nil
dis-allowed	Nil
(2) <u>Section 46 Certificates of Provisional Approval</u>	
(a) Applications received	15
(b) " granted	12
(c) " refused	Nil
(3) <u>Section 54</u>	
Number of County Court orders made empowering Landlords to enter and carry out works	Nil

Housing Act 1958 - 1964 Grants

Discretionary Grants

10 Applications were received

5 schemes were completed during the year

Standard Grants

39 Applications were approved

48 Schemes were completed to provide standard amenities including 5 eligible for the Higher Limit Grant as follows:-

Indoor water closets	37
Hot water supplied (1 or 2 points)	14
" " " 3 points)	18
Baths	21
Wash Hand Basins	28
Sinks	6

The grants paid amounted to £6,979. Repairs, alterations and other works not ranking for grant were carried out at the same time and the cost borne by the owners. 30 of the houses were owner-occupied and 13 tenanted.

Unsatisfactory	-

Laboratory Facilities

The Public Health Laboratory, being the laboratory for the Notts. Area under the Public Health Laboratory Service carried out the following examinations:-

Milk	Phosphatase Test, Methylene Blue Test Bacteriological etc.
Ice Cream	Methylene Blue Test, Grading etc.
Food	Bacteriological examination of foodstuffs
Water	Bacteriology of water
Pathological Specimens			Bacteriology and pathology of swabs, sputa etc.

The laboratory carries out many other functions but the above are the main ones the Department is likely to require. The service is a most excellent one and is available to the Medical Profession.

City Analyst's Laboratory

Similar examinations to the above are carried out in respect of milk, ice-cream and water. The laboratory is also able to carry out chemical analysis of food. Mr. E. R. Fogden is an official analyst for the purpose of the Food & Drugs Act 1955.

VOLUNTARY SURRENDER OF UNSOUND FOOD, SECTION 8-12

All condemned food, excepting meat from the slaughterhouse, is taken to the Council's Tip at Ollerton Road where it is satisfactorily disposed of. The following is a list of food stuffs voluntarily surrendered by traders during the year.

MEAT AND FISH

	<u>Tins/Pkts</u>		<u>Tins/Pkts</u>	
Beefburgers	47	Meat (Joints)	3478 $\frac{1}{4}$	lb

Ice Cream (Heat Treatment) Regulations 1959

All premises in which ice cream is stored and sold have been subject to regular inspection and all conform to the regulations.

92 premises are registered in the District for storage and sale of ice cream 6 of which were registered in 1970.

MEAT INSPECTION

This work continues to be a major operation not only in importance but in the amount of time taken up by the technical staff of the department.

The service was fully maintained throughout the year and one hundred per cent meat inspection was carried out at the one slaughterhouse in the district, that of Messrs. S. Hackett Limited, 15 Mansfield Road, Daybrook.

The following animals have been inspected during the period 1st January to the 31st December 1970.

Beasts	12,809
Calves	168
Pigs	36,203
Sheep	35,143
	<hr/>
	84,323

The charges made for this service amounted to £3,191.97.

OVERTIME

During the year overtime has been worked by the Inspectors on a number of occasions.

The main overtime being Monday evenings, a few Saturday afternoons and Sunday mornings, especially after Bank Holidays.

During this period the meat and offal condemned was as follows:-

BEASTS

Heads	40

NOTTINGHAMSHIRE COUNTY COUNCIL ACT, 1951

Hairdressers : Section 155

Hairdressing establishments in the districts are registered and regularly inspected. All comply with the requirements of the Act.

Gents Hairdressers	11
Ladies "	<u>23</u>
	<u>34</u>

In closing, I wish to express my thanks to the Chairman and Members of the Health and Housing Committees for their interest and support, which are much appreciated.

I record my thanks and appreciation to my staff and colleagues for their helpful co-operation.

G.T.Hayes
